

Online Degrees for Part-time Study

Enroll in a top-tier online degree program from anywhere in the world.

Our online programs offer a dynamic learning environment with a blend of asynchronous and synchronous learning. Much of the coursework is designed for students to complete on their own time throughout the week. A weekly interactive live class gives students the opportunity to learn and engage with instructors and classmates in a virtual classroom that can be accessed from anywhere in the world.

Applied Data and Predictive Analytics, B.P.S.

Tying together the fields of computer science, management and business intelligence, the applied data and predictive analytics degree program will prepare budding analysts to derive insights from complex data.

Potential Careers:

- Marketing Manager
- Business Analyst
- Software Developer
- Project/Product Manager
- Data Scientist
- Data Engineer

Creative Leadership, B.P.S.

Good leadership goes far beyond core skills in management and supervision - it requires strategic thinking, agility in adapting to rapidly changing business goals, and exceptional interpersonal skills with a multi-generational workforce.

Potential Careers:

- Client Relationship Associate
- Marketing Analytics Manager
- Demand Generation
- Manager
- Administrative Services Manager
- Training and Development Specialist

Cybersecurity Administration, B.P.S.

Preventing, detecting and responding to attacks is essential to all organizations, and cybersecurity specialists are fighting on the front lines of this effort. With the rising need for protecting our national and personal security from online intrusions, there is a call from government and corporate areas to have specialists, administrators and leaders trained in this field.

Potential Careers:

- Information Security
- Networking Setup
- Core Database, Coding and Scripting
- Network Protocols
- Systems Administration

Business Management, B.P.S.

Today's businesses face unprecedented turbulence and disruption. Rapid changes in technology and the impact of globalization yield uncertainty, and companies need leaders with the skills to nimbly adapt to this changing landscape.

Potential Careers:

- Business Development Manager
- Product Manager
- Account Manager
- Business Analyst
- Financial Analyst
- Sales Director

Computer Programming, B.P.S.

With a comprehensive curriculum of applied and interdisciplinary courses, this part-time degree program will help you build and improve a wide range of work-ready technical and cognitive skills related to computer programming.

Potential Careers:

- Applications Engineer
- Quality Assurance Analyst
- JAVA Software Engineer
- Business Systems Analyst
- Web Developer
- Solutions Architect

Healthcare Administration, B.P.S.

The business of health care is shifting, and its current focus is on maintaining the value and the quality of care while reducing costs to stakeholders. This diverse course blending, balanced with health and management cores, will prepare you for career placement or advancement in the health care field.

Potential Careers:

- Hospital Administrator
- Healthcare Practice Manager
- Compliance Manager
- Medical Facility Manager
- Physician Office Manager

Liberal Arts, A.A.

A major in Liberal Studies is a powerful academic foundation that provides you with the opportunity to develop skills employers value in employees. The Liberal Arts A.A. degree provides a general education in the liberal arts by combining coursework in the humanities, the natural and social sciences, and mathematics.

Potential Careers:

- Training Specialist
- Hospitality Management
- Archivist
- Program Coordinator
- Customer Service Representative

Liberal Studies, B.A.

Explore a range of disciplines and emerge as a well-rounded leader with a diverse education in the areas of humanities, social sciences, mathematics and natural sciences. Gain the critical thinking skills and knowledge that will open doors to advancement in your career, new career opportunities or as a requirement for pursuing graduate school.

Potential Careers:

- Policy Analyst
- Public Relations Personnel
- Publicist
- Copywriter
- Non-Profit Management
- General Manager

Policy Studies, B.P.S.

Join the conversations at the forefront of critical contemporary policy issues. Examine how decisions are made and how they affect government policies—at the international, federal, state, and local levels, as well as in private business and non-profit organizations. And most importantly, learn to examine and measure how the resulting impact of policies affects individuals and communities.

Potential Careers:

- Public Relations
- Policy Analyst
- Fundraising Manager
- Research Analyst

Project Management, B.P.S./M.P.S.

Trained project managers are consistently in high demand. Our project management programs are interdisciplinary and designed to help you explore the foundations of organization, leadership, methodologies and the communication techniques of project management.

Potential Careers:

- Project Manager
- Project Analyst
- Product Manager
- Operations Manager
- Risk Manager
- Scrum Master
